SALE & PURCHASE

AIRCRAFT SALE

Benefit from the expertise and assistance of our consultants with broader experience in pre-owned aircraft sales:

- We give access to our large network of buyers;
- We give visibility to your aircraft on the market;
- We support you in the stages of negotiation and signing of the deed of sale.

Our help allows you to **sell your aircraft quickly and at the best price.**

AIRCRAFT PURCHASE

Acquiring an aircraft requires special expertise. Thanks to an extensive experience in aircraft acquisition, the Menkor Aviation team knows how to identify the constraints of its customers, support them, and offer them the solution that best meets their needs.

Our consultants offer **full support throughout the process** to make it seamless and efficient:

- Advices for defining the type of aircraft you need and the acquisition option;
- Proper research for planes and help in selecting the one that best meets your requirements;
- Help in negotiation phase;
- Advices for taxes, fees and insurance;
- Ferrying flight.

Menkor Aviation's support **guarantees** you an optimal and **successful aircraft purchase.**

| CONSULTING SERVICES

Menkor Aviation's consultants bring deep domain expertise and hands-on collaboration. Our long experience and unparalleled relationship network allow our clients to benefit from high quality insights and expertise.

SAFETY MANAGEMENT SYSTEM

Each aircraft operator has to establish a safety management system to achieve a high level of safety.

Our consultants help you to:

- Identify safety hazards;
- Implement measures to maintain a high level of safety;
- Provide for regular monitoring and evaluation of the safety level.

MAINTENANCE

Airworthiness Review

Our airworthiness experts carry out complete and efficient airworthiness review of your aircraft. You have a complete overview and its airworthiness and its valuation.

Continuing Airworthiness Management

Our maintenance consultants design a comprehensive program of maintenance and periodic technical inspections. We take care to maintain a high level of reliability of your aircraft so that you can continue to operate it safely.

AIRCRAFT OPERATORS SUPPORT

Strategy and Business Plan

Get support to help your airline grow. You benefit from advice on the choice of your fleet, on the operating policy and on the financing strategy. Benefit from support in drafting your business plan: market analysis, profitability simulation and strategic objectives.

Obtaining an AOC

Obtaining an Air Operator Certificate is a rather long and complex process. Our consultants offer their expertise to support you: preliminary checks, restrictive conditions, content of the application file, as well as recommendations to stay in compliance with the requirements.

Flight Crew Recruitment

Flight crew have a very important role in delivering a high-quality transport and maintaining the airworthiness of your fleet. Entrust the recruitment of your crew to our specialists. We select suitable profiles with a high level of requirements by relying on a vast relationship network of flight crew.

CONFIDENTIALITY

All our consulting services are strictly confidential. Your information will only be used in the sole purpose of carrying out the consultancy assignment and will never be exposed.
